

SARTOMER's portfolio to optimise adhesive formulation

Stéphane THION, Michael BERNARD - Sartomer

Sartomer's diverse "tailor made" Acrylate / Methacrylate monomer and oligomer product line is ideally suited for use in a wide variety of adhesive applications. The presentation will overview this product range before demonstrating how to optimise your adhesive formulations in technologies such as Ultraviolet Light and Electron Beam Cure for PSA and laminating applications and Peroxide & Amine Cure for caulks, sealants and anaerobic adhesives applications.
